

# Kwik Mark - Mini Mark

The Mini Mark is a versatile, compact dot peen marker designed for seamless machine integration, while also serving as a convenient, portable handheld solution.

## Standard Features

- Light weight handle for right and left handed users
- Detachable solid state control box
- 4" x 5" x 7" head size
- Compact Flash Card file storage
- RS-232 and LAN connectivity
- Bar code input ready. Job selection and/or data input
- 12 Key Touch Pad
- Back-lit 4 Line LCD Display
- Includes Standard IBM Keyboard
- Pre-programmed with iTeach
- Serializing / Date / Time coding
- Variable data input (bar code scanner or keyboard)
- Straight, angular and arc text line modes
- Mix & Match line types and line styles

## Dual Mode of Operation

### TRADITIONAL:

Setup job on the controller. User will be prompted step by step, for a name, marking info, etc, and job will be saved to internal CF memory card.

OR

### EXPRESS TEST:

Just press F1 and type. When the button is pressed, the machine marks what you typed! *Because sometimes there's no reason to save the job.*
