

# ST-24

## Bench Top Micro Mark Stand

The ST-24 stand is a great solution for converting your Micro Marker into an ergonomic bench top machine. The large machine bed features a 24 inch tall column that can accommodate larger parts than most competitive bench top units.

### Features

- Easily convert your Micro Mark into a bench top machine
- The clever “snap-in” mount results in a quick change over and requires no tools
- Machine tool construction
- The removable handle / guide assembly provides more clearance with less clutter
- The base plate has pre-tapped holes for mounting your own fixture
- Get two machines in one
