Saw Blade Marking Support

This 24" square steel bench top base includes four rubber feet for stability and a 9.5" center disc for solid support under the marking area. Three equally spaced, removable arms with adjustable spacers hold saw blades from 10" to 72" in diameter.

Features

- Pneumatically retracting arbor
- Comes with the pneumatic foot pedal
- Rubber feet for support
- A tapered "pull" lock engages and centers the unit.
- A tapered top cap is used to locate and lock the KwikMark with Porta Stand Attachment
- Adjustable spacers for multiple size blades
